DLP FORM 1 ENTRY PRACTICE TEST

English · Mathematics · Science with Essay + Writing

For Year 6 pupils sitting a Dual Language Programme (DLP) entry or diagnostic test for Form 1

Paper	Inside	Time
1 English: Reading + Language	3 sections, 35 questions	50 min
2 English: Writing	Short writing + Essay	50 min
3 Mathematics (in English)	20 objective + 8 structured	60 min
4 Science (in English)	20 objective + 6 structured	45 min
Answers	Full answer scheme, essay marking guide, 2 model essays	—

> **Please read:** This is our own practice set, written to match the kind of test many secondary schools use to choose pupils for DLP classes (English level, plus Maths and Science in English). It is **not** the official test of any school. Each school sets its own paper, so the format and subjects may differ. Ask your school which subjects are tested and practise those papers first.

Nightmew Studios · October 2026

How to use this set

1. Do it like a real test. Quiet table, a timer, no help. Write the answers on paper.
2. Mark it with the Answers section at the back. For the essay, use the marking guide (out of 20).
3. Look at the mistakes, not the score. Redo every wrong question the next day.
4. Read the 2 model essays aloud. Copy useful phrases into a notebook.

What DLP tests usually check

Skill	What the school wants to see	Where in this set
Reading	Understand a passage and answer in full sentences	Paper 1 Section C
Grammar + vocabulary	Tenses, prepositions, word choice	Paper 1 Sections A, B
Writing	Clear sentences, paragraphs, correct grammar	Paper 2
Maths in English	Read English word problems and solve them	Paper 3
Science in English	Know science words and explain simple ideas	Paper 4

Score guide

Total (out of 200)	Meaning
160 and above	Ready. Keep reading English every day.
120 – 159	Nearly there. Practise writing and word problems.
Below 120	Practise 20 minutes of English reading daily and redo this set in 2 weeks.

Marks: Paper 1 = 50, Paper 2 = 50, Paper 3 = 60, Paper 4 = 40.

Paper 1 · English: Reading and Language (50 marks · 50 minutes)

Section A · Grammar (15 marks) — choose the best answer.

1. My brother _____ to school by bus every morning.

B. short
C. difficult
D. funny

25. Please remember to bring your book.

A. forget
B. try
C. want
D. hope

Section C · Reading comprehension (25 marks)

Read the passage and answer the questions.

The Turtle Volunteers

Every year between April and September, green turtles swim to the quiet beaches of Terengganu to lay their eggs. Each mother turtle digs a hole in the sand with her back flippers and lays about one hundred eggs before covering them and returning to the sea.

Last school holiday, Hana joined a group of volunteers at a turtle hatchery. Her job was to help the rangers collect the eggs before people or animals could steal them. The eggs were carefully moved to a fenced area and buried again at the same depth. "If the eggs are too cold or too hot, the babies will not hatch," explained Encik Razak, the head ranger.

After about fifty days, the baby turtles broke out of their shells. At night, Hana helped to carry the tiny hatchlings in a basket to the edge of the water. They are released at night because bright light confuses them. Hana watched them crawl towards the waves. "Only about one in a thousand will grow up," Encik Razak said quietly. Hana felt sad, but she was also proud that she had given them a chance.

When she went home, Hana told her classmates to stop using plastic bags. "Turtles think floating plastic bags are jellyfish," she said. "When they eat them, they become very sick."

26. When do green turtles come to the beaches of Terengganu? [1]

27. How many eggs does a mother turtle lay at one time? [1]

28. Why did the volunteers collect the eggs? [2]

29. What would happen if the eggs were too cold or too hot? [2]

Paper 2 · English: Writing (50 marks · 50 minutes)

Section A · Short writing (15 marks) — about 80 words

Your cousin Daniel lives in Sabah. He is coming to stay with your family for one week during the school holidays.

Write an **email** to Daniel. In your email:

- welcome him and say when you will pick him up
- tell him TWO places you will visit together and why
- tell him ONE thing he should bring

Start: *Dear Daniel,*

Section B · Essay (35 marks) — about 150 to 200 words. Choose ONE.

1. Story. Write a story that begins: "*The moment I opened the box, I knew this day would be different.*"

2. Describe. *My Best Day at Primary School.* Describe what happened, who was there and why you will always remember it.

3. Your opinion. *Should pupils be allowed to bring mobile phones to school?* Give your opinion with at least TWO reasons.

> **Plan first (5 minutes):** Paragraph 1 = start / your view. Paragraphs 2–3 = main events or reasons with details. Last paragraph = ending / what you learned. Check spelling and tenses at the end.

Use your own lined paper for the essay.

Paper 3 · Mathematics in English (60 marks · 60 minutes)

Section A · Objective (20 marks) — choose the correct answer.

1. What is the value of the digit 7 in 4 **7**63 215?
   A. 7 000 B. 70 000
   C. 700 000 D. 7 000 000

2. Round off 3 846 529 to the nearest hundred thousand.
   A. 3 800 000 B. 3 850 000
   C. 3 900 000 D. 4 000 000

3. Which of these is a prime number?
   A. 21 B. 27
   C. 29 D. 33

4. What is the lowest common multiple (LCM) of 6 and 8?
   A. 2 B. 14
   C. 24 D. 48

5. 2/3 + 1/4 = ?
   A. 3/7 B. 11/12
   C. 3/12 D. 1 1/12

6. 0.6 × 0.4 = ?
   A. 0.024 B. 0.24
   C. 2.4 D. 24

7. Convert 3/8 to a percentage.
   A. 3.8% B. 30%
   C. 37.5% D. 38%

8. 25% of RM240 is
   A. RM24 B. RM48
   C. RM60 D. RM96

9. 2.5 kg − 750 g = ?
   A. 1.25 kg B. 1.75 kg
   C. 1 750 kg D. 2.25 kg

10. A movie starts at 8:45 p.m. and lasts 1 hour 50 minutes. When does it end?
    A. 9:35 p.m. B. 10:25 p.m.
    C. 10:35 p.m. D. 10:45 p.m.

11. The ratio of boys to girls in a class is 3 : 5. There are 40 pupils. How many are girls?
    A. 15 B. 24
    C. 25 D. 30

24. The table shows the number of books read by 5 pupils: Ali 6, Ben 9, Chen 4, Devi 7, Eva 9. (a) Find the mode. (b) Find the median. (c) Find the mean. [6]

25. A rectangle has a length of 12 cm. Its area is 84 cm². Find (a) its width, (b) its perimeter. [5]

26. Amin has twice as many marbles as Bala. Together they have 54 marbles. How many marbles does Amin have? [5]
