LATIHAN BAHASA INGGERIS

ENGLISH FORM 1 TINGKATAN 1

DSKP 2026 | Sekolah Menengah Malaysia

28 Halaman **Answer Key** **Cetak Tanpa Had**

📘 **Unit 1** — Vocabulary: Synonyms, Antonyms & Word Meaning
📘 **Unit 2** — Grammar: Parts of Speech
📘 **Unit 3** — Tenses: Present, Past & Future
📘 **Unit 4** — Articles, Prepositions & Conjunctions
📘 **Unit 5** — Reading Comprehension
📘 **Unit 6** — Directed & Continuous Writing
📗 **Answer Key** — m/s 24–28

Unit 5A: Reading Comprehension (I)

Name: _____ Date: _____ Score: ____ / 15

Read the passage carefully and answer the questions that follow.

Hummingbirds are one of the most remarkable birds in the world. These tiny creatures, which can weigh as little as two grams, are found mainly in the Americas. What makes them truly unique is their ability to hover in mid-air by flapping their wings at an extraordinary speed of 50 to 80 times per second. This rapid movement creates the characteristic humming sound that gives them their name.

Hummingbirds are the only birds that can fly in all directions — forwards, backwards, sideways, and even upside down for a short time. They feed primarily on flower nectar using their long, specialised beaks and tongues. A hummingbird must consume approximately half its body weight in nectar daily to fuel its fast metabolism.

Despite their small size, hummingbirds have an incredible memory. They can remember every flower they have visited and how long it takes for each flower to refill with nectar. Some species of hummingbirds migrate thousands of kilometres each year, crossing large bodies of water without stopping.

Answer the following questions based on the passage.

1. Where are hummingbirds mainly found?

2. How many times per second do hummingbirds flap their wings?

3. What is unique about how hummingbirds can fly?

Unit 5A: Reading Comprehension (II)

Name: _____ Date: _____ Score: ___ / 15

Continue answering questions based on the passage about hummingbirds (m/s 14).

4. What do hummingbirds mainly eat?

5. Why must hummingbirds eat so much nectar every day?

6. What shows that hummingbirds have a good memory?

7. Find a word in paragraph 1 that means "to stay in one place in the air".

8. Find an antonym for the word "tiny" in the passage.

9. What do you think would happen if hummingbirds did not eat enough nectar?

10. Give the passage a suitable title other than "Hummingbirds".

Unit 5B: Reading Comprehension — Poem

Name: _____ Date: _____ Score: ____ / 15

Read the poem carefully and answer the questions.

The River

The river runs through mountains tall,
Past mossy rocks and waterfall,
It carries secrets, old and deep,
Of fish and stones it chose to keep.

It winds its way through fields of green,
The prettiest sight I've ever seen,
Through villages and bridges old,
Its story silently retold.

One day it meets the endless sea,
And there it rests, calm and free,
For every journey has its end,
Around the final, silent bend.

1. Where does the river begin its journey in the poem?

2. Where does the river end its journey?

3. Find a word in stanza 1 that means "covered with moss".

4. What does "its story silently retold" suggest about the river?

Unit 6E: Comprehension — Descriptive Text

Name: _____ Date: _____ Score: ____ / 20

Penang, officially known as the Pearl of the Orient, is a state located on the northwest coast of Peninsular Malaysia. It consists of Penang Island and a strip of land on the mainland called Seberang Perai. Georgetown, the state capital, is a UNESCO World Heritage Site, recognised for its unique blend of colonial architecture, street art, and multicultural heritage.

Penang is renowned worldwide for its exceptional street food. From char kway teow to assam laksa, nasi kandar to cendol, the island offers a breathtaking variety of flavours that attract millions of tourists annually. The famous Penang Hill, which can be reached by a funicular railway, offers stunning panoramic views of the island and the Straits of Malacca.

Beyond its culinary fame, Penang is also a thriving industrial hub. It is home to numerous multinational companies in the electrical and electronics sector, earning it the nickname "Silicon Valley of the East." The state continues to balance its rich cultural heritage with rapid economic development.

1. What is Penang's nickname? _____

2. Name TWO parts that make up the state of Penang.

3. Why is Georgetown a UNESCO World Heritage Site?

4. Name any THREE Penang foods mentioned in the passage.

5. What does "Silicon Valley of the East" refer to? Explain in your own words.

Answer Key — Units 5 & 6

UNIT 5A: Comprehension — Hummingbirds

Answers:

1. The Americas 2. 50 to 80 times per second 3. They can fly in all directions — forwards, backwards, sideways and upside down 4. Flower nectar 5. To fuel their fast metabolism 6. They remember every flower they visited and how long each flower takes to refill with nectar 7. hover 8. large 9. They would not have enough energy and might die 10. Accept reasonable titles e.g. "The Amazing Hummingbird"
